

MAYSSA BEN ROMDHANE

Full-Stack Web & Mobile Engineer

Gabès, Tunisia | +216 58 936 265 | benromdhanemayssa23@gmail.com

GitHub: MayssaBr24 | LinkedIn

PROFESSIONAL SUMMARY

Full-Stack Engineer passionate about modern web technologies and intelligent automation. Strong experience in **design and development** of applications using **Java/Spring Boot, Angular, MERN Stack, and .NET**. Skilled in **automation with n8n** and **AI integration via MCP**. Solid background in **Docker/Kubernetes containerization, CI/CD with Jenkins, microservices architectures, and IoT embedded systems**.

TECHNICAL SKILLS

Languages:	Java (17, 21), JavaScript/TypeScript, Python, C#, PHP, Bash/Shell
Backend:	Spring Boot, Spring Security (JWT, OAuth 2.0), JEE (Servlets, JSP), .NET 8, Node.js/Express.js, FastAPI, Laravel
Frontend:	Angular (20, 22), React.js, Vue.js, Flutter, Blazor, HTML5, CSS3, Tailwind CSS
Architecture:	Microservices, REST/SOAP APIs, gRPC, Event-Driven, API Gateway, Eureka, UML Modeling
Automation & AI:	n8n, MCP (Model Context Protocol), OpenAI API
DevOps & CI/CD:	Jenkins, Docker, Kubernetes, Docker Compose, Git/GitHub, Linux
Databases:	PostgreSQL, MongoDB, MySQL, SQL Server, Firebase
Security:	JWT, mTLS, SSL/TLS, OAuth 2.0
Methodologies & Tools:	Agile/Scrum, Jira

PROFESSIONAL EXPERIENCE

Full-Stack Web Developer – HealthFit Project

June 2025 – September 2025

Laravel, Vue.js, Tailwind CSS, Docker, Azure, Jira

- Designed and developed a membership management platform with business dashboards, dynamic interfaces, and secure REST APIs.
- Dockerized services and deployed the application to Azure App Services in a near-production environment.

Java Full-Stack Developer – ESSAT Finance Project

January 2025 – June 2025

Java 17, Spring Boot, React, mTLS, Nginx

- Developed a financial module based on a distributed microservices architecture.
- Implemented mTLS authentication and handled production-level constraints (security, availability, networking).

Technical Internship – Network Infrastructure (Tunisie Télécom)

August 2024

- Network diagnostics, hardware troubleshooting, and performance optimization.

SELECTED TECHNICAL PROJECTS

MERN Platform with Intelligent Automation

2025

MongoDB, Express.js, React.js, Node.js, n8n, MCP, Cloudinary, Stripe, JWT, Docker

- Developed an e-commerce platform with JWT authentication and role-based access control.
- Implemented **n8n automation workflows** for emails, notifications, data synchronization, and reporting.
- Integrated **MCP-based AI assistance** for intelligent customer support and recommendations.

Microservices Architecture with CI/CD

2025

Spring Boot, Eureka, API Gateway, Jenkins, Docker, Kubernetes

- Designed a microservices system with 5 services (Customer, Product, Billing, Discovery, Gateway).
- Built a Jenkins CI/CD pipeline including build, testing, Dockerization, and automated deployment.

Modular Angular Frontend Web Application (Angular & Spring Boot)

2025

Angular, Spring Boot, Spring Security, JWT, MySQL

- Developed a modular Angular SPA with secure routing and reactive forms.
- Implemented JWT authentication and role-based access (USER / ADMIN).
- Secured backend APIs using Spring Security.

Big Data Processing & Data Engineering

2025

Hadoop, HDFS, MapReduce, Spark, Kafka, PySpark

- Built distributed Big Data pipelines using Hadoop and HDFS.
- Processed and analyzed large-scale datasets with Spark and PySpark.

Microservices Architecture – .NET 8

2025

ASP.NET Core, RabbitMQ, JWT, Swagger

- Designed a distributed system based on **Clean Architecture**.
- Implemented asynchronous communication using RabbitMQ.

Intelligent IoT & Embedded Systems

2025

Python, Raspberry Pi, Sensors

- Developed an autonomous embedded system using distance, temperature, and humidity sensors.
- Performed real-time data processing and hardware/software integration.

EDUCATION & CERTIFICATIONS

Engineering Degree in Software Engineering | ESSAT Gabès

2022 – Present

Certifications: MERN Stack, Big Data, Distributed Systems, ASP.NET Core

Leadership: Student Representative (2 years) | Communication Manager – Ideal Club | IEEE Member

LANGUAGES

Arabic (Native) French (C2) English (B2)
